

Upload Image To IBM Container

Date	08 November 2022
Team ID	PNT2022TMID17979
Project Name	Inventory Management System for retailer

CREATING REPOSITORY IN IBM CLOUD:

Create repository

1. Tag an image to point to this registry. Choose a local image, target namespace, and target repository.

```
docker tag <local_image> icr.io/<my_namespace>/<my_repo>
```

2. Push the tagged image.

```
docker push icr.io/<my_namespace>/<my_repo>
```

UPLOAD IMAGE TO IBM CONTAINER REGISTRY:
